

Less **STOP** More **GO**

Metro is working to improve your bus service. One way to make buses run more on-time and reliably is by combining bus stops that are very close together.

Metro is considering combining this bus stop with another stop located 1 to 2 blocks away to improve service. (This bus stop would be discontinued.) We would like to hear your feedback before making any decision.

To offer your comments, or for more information, visit **wmata.com/betterbus** or **call (202) 962-2440**, by June 20.

When buses spend more time moving and less time stopping, everyone enjoys a faster, more reliable trip.
